Remit2any, Lexikon, Clo Docs, Committi, Consultant, Founder **May 2025 - Present**

Setup the design practice and design system as a consultant. Founded Committi (Figma, Cursor, Claude)

- Lexikon > defined the design system, ux patterns and fleshed out features for pilot
- Clo Docs > Incorporated Microsoft's fluid design system, refined functionality and user experience for initial platform roll out
- Committi > Defined functionality, initial design and performed ai assisted development of the MVP
- Remit2any > Designed the NRI Focused UPI payments app for remit2any's customers

Cashfree Payments, Lead Designer **Jul 2022 – May 2025**

Led the Payment gateway pod at Cashfree payments (team of 4 people) (Figma)

- Responsible for the design and rollout of new checkout pages. Worked with product and engineering strategically for a successful rollout. Increased transaction success rates by 6% and reduced time on page to 3 seconds (from 15 seconds)
- Collaborated with teams to redesign tables, search functionalities, reporting mechanisms, and the design system. Developed the nomenclature and framework for user event tracking, which was implemented company-wide.

Enterpret, Founding Designer **Dec 2021 – May 2022**

Built the initial design function at Enterpret (Figma)

- Developed initial design processes and set up the initial base for the design system
- Designed and implemented the new user signup and invite flow

MoEngage, Senior Product Designer **May 2019 – Dec 2021**

Worked across teams to consolidate, standardize and improve UI and UX. (Sketch, Illustrator and Figma)

- Led a 7-person design team for almost a year, mentoring juniors on campaign analytics and email campaigns. Managed resource allocation and scheduling simultaneously.
- Redesigned various pages/features of the app, including our primary journey building tool
- Collaborated on a living design system that will be rolled out across all tools, ensuring product consistency

Fintellix, Primary Designer **June 2016 – May 2019**

Worked across teams to consolidate, standardize and improve UI and UX. (Sketch, Illustrator and InVision)

- Designed the Master Card CRMS (Customer Risk Management System).
- Designed a living style guide that will be rolled out across all tools, to create a uniform look and feel. Rolled out new UI/UX across our ETL tool, Task scheduler and Ad-Hoc reporting tool.
- Developed simplified User Experiences that scale seamlessly whether the user is dealing with 10 data records or 10,00,000 data records

National Institute of Design, Bangalore **June 2014 – June 2016**

Masters in Information Design (awarded Jan 2018)

- Published a paper on " Viewfinder" : Navigation and Aid for the Visually Impaired", INDIA HCI 2016
- Paper based poster published on "Designing a framework for trait measurement in children as a base for a personalised continuously evolving learning system", ICCCAD 2016

Onwebaccount.in, Developer, Founder

Used ruby on rails to build a comprehensive web billing portal

March 2012 – June 2014

(Ruby on Rails)

Parivartana Consulting, Developer

May 2011 – March 2012

Wrote text based artificial intelligence programs, created JavaScript based interactive UI (Python,HTML5 and JS)

BMS College of Engineering, Bangalore

May 2007 – May 2011

Bachelors in Telecommunication Engineering

Awards and achievements

- 1 patent granted and 1 under review for the next gen of physical pos machines
- Cashfree: Won 5 WOW awards for contributions to other projects like Router, Analytics, Settlements and more
- Moengage: Won the Rockstar of the quarter award for the 2nd and 4th quarter 2020
- Fintellix: Won the Mastercard CFO award for the CRMS tool
- NID: Winners of the Intel Securities/ McAfee Designovation challenge — 2014
